

Mastering the Fire Service Assessment Center

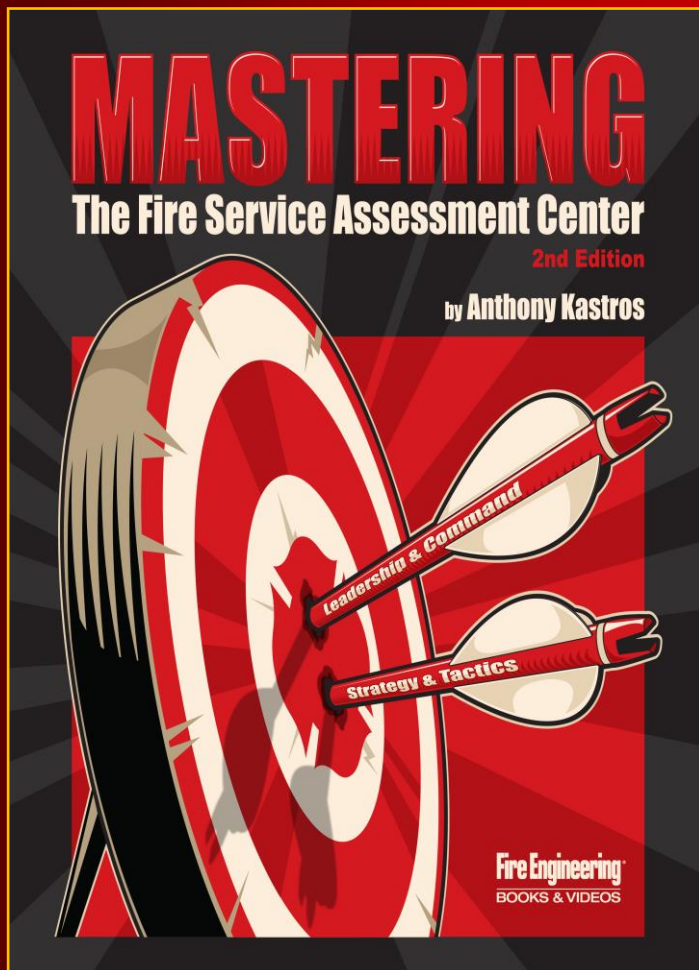

4-Day Workshop

Based on the Best-Selling Book

Mastering the Fire Service Assessment Center
By Fire Engineering

- Participate in emergency simulations, oral presentations, visual resumes, promotional interviews, counseling sessions, video counseling, in-baskets, and supervisory exercises.
 - Discover the proper mentality for the test, including how to shed baggage at the door.
 - Focus on becoming position-oriented vs. test-oriented.
 - Learn over 30 Knowledge, Skills and Abilities that span the dimensions of leadership, management and emergency operations.
 - Assess and be assessed using scoring criteria utilized in today's assessment centers.
 - Practice exercise-specific tools and avoid candidate pitfalls.
- * Includes **BRAND NEW 2ND EDITION** of best-selling book published by **Fire Engineering**. This new edition is over 430 pages and has hundreds of new features, exercises, and tools!

"The #1 mistake candidates make is to wait too long to prepare for the assessment center. The job and the assessment center are about performance. It takes time to build the knowledge, skills and abilities to perform."
– Anthony Kastros

"This book will give you the greatest probability of success in your assessment center process. There is no way you can read and reflect on the information and wisdom within these pages and not be a better person and a better firefighter for it."
Bobby Halton, editor-in-chief, Fire Engineering Magazine

"The information from both the class and the book allowed me to achieve a score of 100% in my first attempt at an assessment center. Between what I had been studying in your book with friends and what went on at the seminar, we attained scores of 93.5% and 100%."
Chuck – Los Angeles City FD

"This workshop was more worth the time and money than I could have imagined. One of the best classes I have taken and I will recommend to anyone serious about promoting!"
Brian – Sacramento Metro Fire

Anthony Kastros is a 31-year fire service veteran and a battalion chief with the Sacramento Metro Fire District. He is author of the Fire Engineering series Mastering the Fire Service Assessment Center, Mastering Fireground Command – Calm the Chaos, and Mastering Unified Command – From Hometown to Homeland. He was the FDIC International 2013 Keynote Speaker and has taught thousands of firefighters across America in officer development, leadership and command.
